

APSORC 17

6th Asia-Pacific Symposium on Radiochemistry

September 17 ~ 22, 2017
ICC Jeju · Jeju Island, Korea

Call for Papers

Invitation

Dear Colleagues,

In September 2017, the 6th Asia-Pacific Symposium on Radiochemistry will take a place in Jeju Island where is the largest volcanic island in Korea and a premier tourist destination boasting mild weather, as well as scenic beauties of Hallasan National Park.

I hope that this sixth edition of symposium will be the most successful APSORC yet and attendees enjoy both the scientific discussion on their achievement and the breathtaking views of Jeju Island including some registered as a UNESCO World Natural Heritage.

Dr. Kwang Yong JEE
Korea Atomic Energy Research Institute
Chairman, APSORC 17 Organizing Committee

Call for Papers

APSORC 17 invites you to submit papers to share the findings of the latest cutting-edge research to help manufacture radiochemistry of today and tomorrow. This symposium will bring together a diverse group of scientists, engineers and operational managers from around the world specializing in radiochemistry issues.

Technical Sessions

1. Non-proliferation Issues
2. Severe Accident & Environmental Remediation Issues
3. Nuclear Chemistry
4. Nuclear Energy Chemistry
5. Nuclear Analytical Techniques
6. Separation Chemistry
7. Actinide Chemistry
8. Nuclear Forensics
9. Environmental Radiochemistry and Radioecology
10. Radiopharmaceutical Chemistry
11. Application of Nuclear and Radiochemical Techniques
12. Education in Nuclear and Radiochemistry

Submission of Abstracts

All abstracts must be submitted via the official website of the APSORC 17 (www.apsorc17.org) by the deadline, December 15, 2016.

Detailed abstract submission guidelines including online submission process and abstract template download are available on the website.

About Jeju Island, Korea

Jeju Island is the largest volcanic island in Korea. Officially called Jeju Special Self-Governing Province, this premier tourist destination boasts mild weather, as well as scenic beauties of beaches, waterfalls, cliffs and caves. Some of the top tourist sites include Hallasan National Park with a largely diverse species of flora and fauna, Seongsan Ilchulbong Peak with breathtaking views, and Manjanggul Cave, the world's longest lava tube that has been registered as a UNESCO World Natural Heritage. Meanwhile, Jeju has recently won the Global Geopark certificate, and also has been selected as the New7 Wonders of Nature.

Visitors from over 180 countries are permitted to enter Jeju Island and stay up to 30 days without Korean Visa according to the "Special Law of Jeju Liberal City". Find out more information on the Jeju Island at the APSORC 17 website at www.apsorc17.org.
